

高周波測定受託サービス

High frequency measurement service

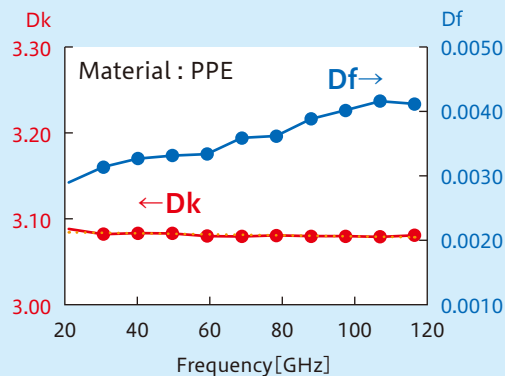

特長 Features

- ✓ 100GHz帯までの誘電率と伝送線路を計測します
Measurement of dielectric properties and transmission line characteristics (up to 100 GHz)
- ✓ 電磁界解析、測定パターン設計、測定基板製造、断面解析も対応します
Electromagnetic field simulation, test pattern design, its manufacturing, and cross section analysis

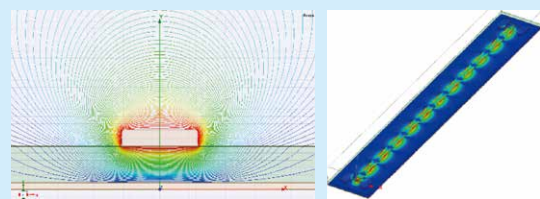

サービス内容 Service value chain

①誘電率(Dk/Df) Dielectric properties (Dk/Df)

②電磁界解析 Electromagnetic field simulation

③測定パターン設計 Test pattern design

④測定基板製造 PWB manufacturing

⑥断面解析 Cross section analysis

⑤伝送線路特性 Transmission line characteristic
